Primary Examiner Art Unit: 1634 Continuation of 11. does NOT place the application in condition for allowance because: Applicant reiterates the previous arguments addressed in the Final Office Action. The arguments are not found persuasive for reasons of record. Applicant further asserts that the prior art does not recognize the problem solved by the instant invention. The asserted problem solving aspect of the instant claims is noted, but not found persuasive because the assertion is not supported by factual evidence. This is not an invitation to file an affidavit or evidence because such a filing after final action would be deemed untimely.

The arguments of counsel cannot take the place of evidence in the record. In re Schulze, 346 F.2d 600, 602, 145 USPQ 716, 718 (CCPA 1965). Examples of attorney statements which are not evidence and which must be supported by an appropriate affidavit or declaration include statements regarding unexpected results, commercial success, solution of a long-felt need, inoperability of the prior art, invention before the date of the reference, and allegations that the author(s) of the prior art derived the disclosed subject matter from the applicant. (see (MPEP 716.01(c).
